Overview: Truly breathtaking is a very accurate description for this superb value country house. The property sits on a rustic plot of just over 10,000m² with over 300 mango trees and other assorted fruit and vegetables. There is an impressive long driveway past the workshop, large chicken coop and through the middle of one plantation leading up to the house entrance with a covered carport, turning circle and parking for many other vehicles. The property was built in 2007 so, even with its rustic designation and location, the house has a more modern feel. Built on one level with an impressive split level lounge diner and very high ceilings, ample kitchen and separate utility room, 3 double bedrooms, all with en suite bathrooms, one has built in wardrobes, the other 2 have walk in wardrobes. The house has a pre installed air conditioning system if required although the current owners have never felt the need as the design of the house keeps it cool in the summer and warm in the winter. 2 deep terraces on the south and west sides of the house, both with sun blinds, are a massive help in keeping the house cool. The main garden and swimming pool are truly first class and the whole house and grounds are in immaculate condition meaning this lovely home can be lived in immediately. This property really needs to be viewed to be fully appreciated

Features:

Pool, Mountain views, Private garden, Parking
