Overview: The house is distributed in 5 floors, 4 of them communicated by lift. The basement has cisterns, pressure motors, boilers, etc., to avoid the inconvenience of noise that these mechanisms can produce. The semi-basement floor, located at street level, has access to the house through a beautiful wrought iron gate and a marble staircase that leads to the main floor of the house. Through a folding door you can access the garage for 2 cars, and through a corridor it leads us to a big game room where we find the sauna-turkish bath, toilet, hydro-massage shower, wine cellar, laundry and flat for the service, which consists of living-dining room with fully equipped kitchen, bedroom with bathroom en suite. On the ground floor there is an entrance hall overlooking the patio with an exclusive design fountain, a large living room with marble fireplace, a separate dining room, a fully equipped kitchen, a toilet and access to the garden surrounded by tropical plants and a saltwater swimming pool. Through the kitchen we have access to a backyard, which also connects to the garden. First floor, 3 bedrooms with bathrooms en suite, the main one with a hydro-massage bath, dressing room and independent terrace. Second floor, bedroom with jacuzzi bath, independent terrace.
