Описание: This property is a most enchanting villa, built in authentic Andalusian style. The entrance features a traditional Moorish bell tower, surrounded by 4 arches which are exact copies of those found at the entrance of the Postigo of the cathedral of Seville. It was constructed by craftsmen brought especially from Morocco, and has incredible acoustics; if one whispers into any corner of this cupola, the sound is amplified and relayed to the opposite corner, like a telephone conversation. The villa has 4 double bedrooms, 3 bathrooms and 1 shower room, a kitchen with a Sevillian patio, a living room with a fireplace and French windows giving on the garden and terrace, a dining room, an inner open courtyard of Roman inspiration with antique marble columns and a marble bath made into a fountain, and an outer patio, featuring a barbeque and a summer dining area. A spacious garden with a large swimming pool creates the peaceful haven that this privileged location close to the exclusive urbanizations of the La Quinta and Monte Halcones is renowned for. The house features air conditioning and central heating throughout, a double covered garage and an exterior covered carport for an additional two cars, as well as a service area with a maid's room and shower room giving onto the kitchen patio.
