Описание:\*New on the market. A large luxury apartment for sale in one of Marbella's best beachfront complexes. Upon entering this large three bedroom property one is instantly drawn into the living room and onto the terrace to really appreciate the great sea views that can be enjoyed from many of the rooms. The apartment has a very large terrace and also an enclosed garden that is conveniently maintained by the community. From the terrace one has direct access to anyone of the three outdoor pools, an indoor pool , a gym, tennis courts and of course the beach. This is really beachside living that makes the best out of the Spanish climate. The apartment itself has built in wardrobes in all of the three bedrooms, electric blinds, glass curtains on the terraces and high quality bathrooms. We strongly recommend a visit.
